No civil liability in respect of this summary will attach to the Issuer in any Member State of the European Economic Area in which the relevant provisions of the Prospectus Directive have been implemented unless this summary, including any translation thereof, is misleading, inaccurate or inconsistent when read together with the other parts of this Prospectus. Where a claim relating to the information contained in this Prospectus is brought before a court in such a Member State, the plaintiff may, under the national legislation of that Member State, be required to bear the costs of translating the Prospectus before the legal proceedings are initiated.

Description of the Securities

The Securities are euro denominated, principal protected index linked notes to be issued by the Issuer on 12 March 2009 and due to mature on 5 June 2017 (the “**Maturity Date**”). The principal amount of each Security is EUR 1,000 and the maximum principal amount of the Securities is EUR 15,000,000. The issue price is 100 per cent. of the principal amount. The securities are linked to the performance of the Dow Jones EuroSTOXX 50SM Index (Bloomberg Code SX5E <Index>) (the “**Index**”). The redemption amount which will be paid to the investor on the Maturity Date will be the greater of the Reference Portfolio Value and the Bond Floor (each as defined below) on the final valuation date, subject to a minimum of 100 per cent. of the principal amount.

The Securities may only be redeemed other than on the Maturity Date for reasons of default by the Issuer or the illegality of the Issuer’s payment obligations or its hedging arrangements.

The Securities will be cleared through Euroclear and Clearstream, Luxembourg.

Application has been made to the Irish Stock Exchange for the Securities to be admitted to its Official List and to trading on its regulated market.

Index Portfolio Value

On each valuation date, the “**Index Portfolio Value**” of the Index is calculated as the closing level of the Index on that valuation date expressed as a percentage of the corresponding level on the initial valuation date.

Dynamic Leveraging

The performance of the Index is subject to dynamic leveraging. Dynamic leveraging is dependent upon the daily volatility of the Index, measured over the 30 days ending on the relevant valuation date. Volatility refers to the standard deviation of the change in the value of the Index over a period of time. Standard deviation is a measure of the spread of values within any given sample population. Exposure to the Index increases or decreases pursuant to a formula as the volatility over the 30 day period decreases or increases respectively, subject to minimum and maximum values and subject to such increases or decreases exceeding certain thresholds. Such formula also results in such exposure being negatively affected by increases in the Bond Floor (defined below), all as further described in the Schedule.

Reference Portfolio Value

On each valuation date the “**Reference Portfolio Value**” is calculated. The Reference Portfolio Value is the previous day’s Reference Portfolio Value multiplied by the percentage change in the Index Portfolio Value from the previous day, after adjustment for the volatility and deduction of a daily accruing variable fee and adjustment for the monthly Euribor rate prevailing two days previously. Depending on the result of the formula for the dynamic leveraging the Euribor related adjustment may be a negative adjustment (in which event the rate used shall be Euribor plus a spread of 0.50 per cent.) or positive (in which event the Euribor rate shall be used). The resultant value is then subject to a further deduction of a daily fixed fee.

Bond Floor and Lock-in

On each valuation date the “**Bond Floor**” is calculated as the Bond Floor for the preceding valuation date (the Bond Floor for the initial valuation date being 75 per cent., unless that valuation date is also a lock-in date. Lock-in dates occur quarterly, starting three months following the initial valuation date. If such date is a lock-in date, the Bond Floor is calculated as the greater of (i) the Bond Floor on the preceding valuation date and (ii) 75 per cent. of the Reference Portfolio Value for the preceding valuation date. The purpose of the lock-in is to protect or “lock-in” a certain percentage of the performance of the Reference Portfolio Value. The higher the Reference Portfolio Value on a Lock-in date, the greater the potential lock-in amount.

The full terms and conditions contain provisions dealing with non-business days, disruptions and adjustments that may affect the Index and the timing of calculations and payments under the Securities.

The Offer

Credit Suisse, London Branch will sell some or all of the Securities to the public in France. The Dealer has no responsibility for such offers.

The offer period will be from 12 March 2009 to 29 May 2009. The offer period may be discontinued at any time. The maximum nominal amount of the offer in respect of the Securities is EUR 15,000,000. The price of the offer will be 100 per cent. of the principal amount. In addition, the Issuer will pay to an arranger an up-front commission and an annual commission equivalent to a maximum of 1.675 per cent. per annum of the notional amount of the Securities purchased.

Purchases can be made by applying to Credit Suisse, London Branch, or otherwise as instructed by Credit Suisse, London Branch. Payment for the Securities shall be made to Credit Suisse, London Branch on or around 5 June 2009 for delivery of Securities to purchasers' accounts on or around 5 June 2009.

Credit Suisse, London Branch reserves the right to cancel the offer if Credit Suisse, London Branch assesses, at its absolute discretion, that any factors render it illegal, impossible or impractical, in whole or part, to complete the offer or that there has been a material adverse change in the market conditions. In case of cancellation, Credit Suisse, London Branch will repay the purchase price paid by any purchaser without interest.

Risk Factors

The terms of the Securities provide that the Redemption Amount (as defined in the Schedule) payable to the investor will be dependent upon the performance of the Index and its volatility and the performance of Euribor. The amount payable at maturity (but not on any early redemption) will be at least 100 per cent. of the principal amount.

An investment in the Securities is not the same as an investment which is directly linked to the Index or Euribor. In particular, higher levels of volatility will result in a lower exposure to changes in the value of the Index. In addition, investors will not benefit from any dividends.

The level of the Index and Euribor may go down as well as up throughout the term of the Securities. Furthermore, the level of the Index or Euribor at any specific date may not reflect its prior or future performance. There can be no assurance as to the future performance of the Index or Euribor. Accordingly, before investing in the Securities, prospective investors should carefully consider whether an investment based on the performance of the Index and Euribor is suitable for them.

The Securities involve complex risks, which include, among other things, equity market risks, credit risks, interest rate risks, volatility risks and/or political risks.

It is not possible to predict the price at which Securities will trade in the market or whether such market will be liquid or illiquid. The Issuer may, but is not obliged to, purchase Securities at any time at any price in the open market or by tender or private treaty. Any Securities so purchased may be held or resold or surrendered for cancellation. The market for Securities may be limited. The only way in which a holder can realise value from a Security prior to maturity is to sell it at its then market price in the market, which may be less than the amount initially invested.

Fluctuations in the prices of the shares comprised in the Index, the levels of the Index and its volatility and Euribor may affect the value of the Securities.

Accordingly, an investment in the Securities is only suitable for investors who (either alone or in conjunction with an appropriate financial adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom.

The levels and basis of taxation on the Securities and any reliefs from such taxation can change at any time. The value of any tax reliefs will depend on an investor's individual circumstances. The tax and regulatory characterisation of the Securities may change over the life of the Securities. This could have adverse consequences for investors.

Before making any investment decision with respect to the Securities, any prospective investors should consult their own financial, tax or other advisers as they consider necessary and carefully review and consider such an investment decision in the light of the foregoing and their personal circumstances.

where:

“**BF_{FINAL}**” means BF_i on the Final Valuation Date.

“**RPV_{FINAL}**” means RPV_i on the Final Valuation Date.

“**SD**” means the Specified Denomination.

BF_i and RPV_i have the meanings given below.

2 Bond Floor

On each Valuation Date_i the “**Bond Floor**” or “**BF_i**”, is calculated as follows:

If Valuation Date_i is also a Lock-in Date then:

where:

“**BF₀**” means 75 per cent.

Otherwise:

$$BF_i = BF_{i-1}.$$

RPV_i has the meaning given below.

3 Reference Portfolio Value

On each Valuation Date_i, the “**Reference Portfolio Value**” or “**RPV_i**”, is calculated as follows (RPV_0 being equal to 100 per cent.):

If W_{i-1} is greater than 100 per cent. then:

$$RPV_i = \left[W_{i-1} \times \left(\frac{IPV_i}{IPV_{i-1}} \right) + (1 - W_{i-1}) \times \left(1 + (\text{Euribor}_{i-2} + \text{LevSpd}) \times \frac{dc_i}{360} \right) - \text{VarFee} \times \frac{dc_i}{360} \right] \times RPV_{i-1} \\ - \text{FixedFee} \times \frac{dc_i}{360}$$

Otherwise:

$$RPV_i = \left[W_{i-1} \times \left(\frac{IPV_i}{IPV_{i-1}} \right) + (1 - W_{i-1}) \times \left(1 + (\text{Euribor}_{i-2}) \times \frac{dc_i}{360} \right) - \text{VarFee} \times \frac{dc_i}{360} \right] \times RPV_{i-1} \\ - \text{FixedFee} \times \frac{dc_i}{360}$$

“**dc_i**” means the number of calendar days from (and excluding) Valuation Date_{i-1} to (and including) Valuation Date_i.

$$TE_i = \frac{(RPV_i - BF_i)}{RPV_i} \times Multiplier$$

where:

“**Multiplier**” means, in respect of Valuation Date_i, the value determined in accordance with the following formula:

$$[6] \times \frac{Vol_{Target}}{MAX[Vol_i, 10\%]}$$

where:

“**Vol_i**” means, for any Valuation Date_i, the volatility calculated by the Calculation Agent as the standard deviation of the changes in the Index Level for each of the 30 Scheduled Trading Days which are not Disrupted Days ending on Valuation Date_i in accordance with the following formula, which may be adjusted from time to time by the Calculation Agent in accordance with market standard calculation methodology such determination, as determined by the Calculation Agents:

$$Vol_i = \sqrt{252} \times \sqrt{\frac{1}{VP} \times \sum_{t=i-VP}^i \ln\left(\frac{IPV_t}{IPV_{t-1}}\right)^2}$$

where:

“**IPV_i**” means the Index Level on Valuation Date_i, expressed as a percentage of the Index Level on the Initial Valuation Date.

“**VP**” means 30.

W_{i-1} / TE_{i-1} is greater than 110 per cent. or is less than 90 per cent.

where:

If a Reference Portfolio Rebalancing Event occurs on Valuation Date_i then subject to both a minimum of the Minimum Exposure and a maximum of the Maximum Exposure:

CLEARING ARRANGEMENTS

The Securities will be cleared through Euroclear and Clearstream, Luxembourg. The Common Code and the International Securities Identification Number (ISIN) are set out in the Issue Specific Terms.

TAXATION

United Kingdom

Provided that the Issuer continues to be a bank within the meaning of section 991 of the Income Tax Act 2007 (the “**Act**”), and provided that the interest on the Securities is paid in the ordinary course of its business within the meaning of section 878 of the Act, the Issuer, acting through its London Branch, will be entitled to make payments of interest under the Securities without withholding or deduction for or on account of United Kingdom income tax.

Payments of interest on the Securities may also be made without withholding or deduction for or on account of United Kingdom income tax if the Securities are listed on a “recognised stock exchange” within the meaning of section 1005 of the Act.

Interest on the Securities may also be paid without withholding or deduction for or on account of United Kingdom tax where interest on the Securities is paid to a person who belongs in the United Kingdom for United Kingdom tax purposes and, at the time the payment is made, the Issuer reasonably believes (and any person by or through whom interest on the Securities is paid reasonably believes) that the beneficial owner is within the charge to United Kingdom corporation tax as regards the payment of interest; provided that HM Revenue & Customs have not given a direction (in circumstances where it has reasonable grounds to believe that the above exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax.

Interest on the Securities may also be paid without withholding or deduction for or on account of United Kingdom tax where the maturity of the Securities is less than 365 days.

In other cases, an amount must generally be withheld from payments of interest on the Securities issued by the Issuer acting through its London Branch on account of United Kingdom income tax at the lower rate (currently 20 per cent.). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Securityholder, HM Revenue & Customs can issue a notice to the Issuer to pay interest to the Securityholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Securityholders who are individuals may wish to note that HM Revenue & Customs have power to obtain information (including the name and address of the beneficial owner of the interest) from any person in the United Kingdom who either pays interest to or receives interest for the benefit of an individual.
