respect of each nominal amount of each Note equal to the Adjusted Calculation Amount will be 138.50 per cent. (138.50%) of the Adjusted Calculation Amount, i.e., EUR 969.50.

Example 6 – neutral scenario: *The Notes have not been redeemed on an Automatic Early Redemption Date, and the Final Closing Price in respect of the Asset is 65 per cent. (65%) or more of its Asset Initial Price but less than 100 per cent. (100%) of its Asset Initial Price.*

In this Example, the Notes will be redeemed on the Maturity Date and the Final Instalment Amount payable in respect of each nominal amount of each Note equal to the Adjusted Calculation Amount will be 100 per cent. (100%) of the Adjusted Calculation Amount, i.e., EUR 700.00.

Example 7 – negative scenario: *The Notes have not been redeemed on an Automatic Early Redemption Date, and the Final Closing Price in respect of the Asset is 64 per cent. (64%) of its Asset Initial Price.*

In this Example, the Notes will be redeemed on the Maturity Date and the Final Instalment Amount payable in respect of each nominal amount of each Note equal to the Adjusted Calculation Amount will be 64 per cent. (64%) of the Adjusted Calculation Amount, i.e., EUR 448.00. **In this Example, an investor who purchased the Notes at the Issue Price will sustain a substantial loss of the amount invested in the Notes.**

Example 8 – negative scenario: *The Notes have not been redeemed on an Automatic Early Redemption Date, and the Final Closing Price in respect of the Asset is zero per cent. (0%) of its Asset Initial Price.*

In this Example, the Notes will be redeemed on the Maturity Date and the Final Instalment Amount payable in respect of each nominal amount of each Note equal to the Adjusted Calculation Amount will be zero per cent. (0%) of the Calculation Amount, i.e., zero. **In this Example, an investor will sustain a total loss of the amount invested in the Notes (other than the Initial Instalment Amount and the Fixed Coupon Amount).**

You should be aware, however, that each of the key risks highlighted below could have a material adverse effect on the Issuer's and Guarantor's businesses, operations, financial and trading position and prospects, which, in turn, could have a material adverse effect on the return investors receive on the Securities.</p> <p>The Issuer and the Guarantor are subject to a number of key risks of Goldman Sachs:</p> <ul style="list-style-type: none"> • Goldman Sachs' businesses have been and may continue to be adversely affected by conditions in the global financial markets and economic conditions generally. • Goldman Sachs' businesses and those of its clients are subject to extensive and pervasive regulation around the world. • Goldman Sachs' businesses have been and may be adversely affected by declining asset values. This is particularly true for those businesses in which Goldman Sachs has net "long" positions, receives fees based on the value of assets managed, or receives or posts collateral. • Goldman Sachs' businesses have been and may be adversely affected by disruptions in the credit markets, including reduced access to credit and higher costs of obtaining credit. • Goldman Sachs' market-making activities have been and may be affected by changes in the levels of market volatility. • Goldman Sachs' investment banking, client execution and investment management businesses have been adversely affected and may in the future be adversely affected by market uncertainty or lack of confidence among investors and CEOs due to general declines in economic activity and other unfavourable economic, geopolitical or market conditions. • Goldman Sachs' investment management business may be affected by the poor investment performance of its investment products. • Goldman Sachs may incur losses as a result of ineffective risk management processes and strategies. • Goldman Sachs' liquidity, profitability and businesses may be adversely affected by an inability to access the debt capital markets or to sell assets or by a reduction in its credit ratings or by an increase in its credit spreads. • A failure to appropriately identify and address potential conflicts of interest could adversely affect Goldman Sachs' businesses. • A failure in Goldman Sachs' operational systems or infrastructure, or those of third parties, as well as human error, could impair Goldman Sachs' liquidity, disrupt Goldman Sachs' businesses, result in the disclosure of confidential information, damage Goldman Sachs' reputation and cause losses. • A failure to protect Goldman Sachs' computer systems, networks and information, and Goldman Sachs' clients' information, against cyber attacks and similar threats could impair Goldman Sachs' ability to conduct Goldman Sachs' businesses, result in the disclosure, theft or destruction of confidential information, damage Goldman Sachs' reputation and cause losses.

		<ul style="list-style-type: none"> • The Guarantor is a holding company and is dependent for liquidity on payments from its subsidiaries, many of which are subject to restrictions. • The application of regulatory strategies and requirements in the United States and non-U.S. jurisdictions to facilitate the orderly resolution of large financial institutions could create greater risk of loss for Goldman Sachs' security holders. • The ultimate impact of the recently proposed rules requiring U.S. global systemically important banks to maintain minimum amounts of long-term debt meeting specified eligibility requirements is uncertain. • The application of GSG's proposed resolution strategy could result in greater losses for GSG's security holders, and failure to address shortcomings in Goldman Sachs' resolution plan could subject us to increased regulatory requirements. • Goldman Sachs' businesses, profitability and liquidity may be adversely affected by deterioration in the credit quality of, or defaults by, third parties who owe Goldman Sachs money, securities or other assets or whose securities or obligations Goldman Sachs holds. • Concentration of risk increases the potential for significant losses in Goldman Sachs' market-making, underwriting, investing and lending activities. • The financial services industry is both highly competitive and interrelated. • Goldman Sachs faces enhanced risks as new business initiatives lead it to transact with a broader array of clients and counterparties and exposes it to new asset classes and new markets. • Derivative transactions and delayed settlements may expose Goldman Sachs to unexpected risk and potential losses. • Goldman Sachs' businesses may be adversely affected if Goldman Sachs is unable to hire and retain qualified employees. • Goldman Sachs may be adversely affected by increased governmental and regulatory scrutiny or negative publicity. • Substantial legal liability or significant regulatory action against Goldman Sachs could have material adverse financial effects or cause significant reputational harm to Goldman Sachs, which in turn could seriously harm its business prospects. • The growth of electronic trading and the introduction of new trading technology may adversely affect Goldman Sachs' business and may increase competition. • Goldman Sachs' commodities activities, particularly its physical commodities activities, subject Goldman Sachs to extensive regulation and involve certain potential risks, including environmental, reputational and other risks that may expose it to significant liabilities and costs. • In conducting its businesses around the world, Goldman Sachs is subject to political, economic, legal, operational and other risks that are inherent in operating in many countries. • Goldman Sachs may incur losses as a result of unforeseen or catastrophic events, including the emergence of a pandemic, terrorist attacks, extreme

D.6	Key risks that are specific to the Securities:	<ul style="list-style-type: none"> • Your capital is at risk. The return on the Securities may be significantly less than what you would have otherwise received had you been able to declare the Securities immediately due and repayable upon the insolvency of the Guarantor. • We give no assurance that application for listing and admission to trading will be granted (or, if granted, will be granted by the issue date) or that an active trading market in the Securities will develop. We may discontinue any such listing at any time. • The potential for the value of the Securities to increase is limited as the performance of the underlying asset(s) to which the Securities are linked is capped. • Indices which are deemed 'benchmarks' are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. Any such adjustment may have a negative effect on the value of and return on your Securities; the amount you receive following an early redemption may be less than your initial investment and you could lose some or all of your investment. • The Issuer of your Securities may be substituted with another company. • We may amend the terms and conditions of your Securities in certain circumstances without your consent.
